

RECORD ACCESS PROCEDURES:

Individuals seeking access to information about themselves contained in this system should address written inquiries to The Judge Advocate General, Headquarters United States Air Force, 1420 Air Force Pentagon, Washington, DC 20330-1420.

Requesters must submit their name, grade, and personal identification. Individuals may be required to provide the name of the installation where documents are suspected to be along with the general dates of the documents, if known.

CONTESTING RECORD PROCEDURES:

The Air Force rules for accessing records, and for contesting contents and appealing initial agency determinations are published in Air Force Instruction 33-332; 32 CFR part 806b; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

From the requestors for their appeal and all Air Force records compiled to respond and process initial FOIA request.

EXEMPTIONS CLAIMED FOR THIS SYSTEM:

During the course of a FOIA action, exempt materials from 'other' systems of records may in turn become part of the case records in this system. To the extent that copies of exempt records from those 'other' systems of records are entered into this FOIA case record, the Department of the Air Force hereby claims the same exemptions for the records from those 'other' systems that are entered into this system, as claimed for the original primary systems of records which they are a part.

An exemption rule for this system has been promulgated in accordance with requirements of 5 U.S.C. 553(b)(1), (2), and (3), (c) and (e) and published in 32 CFR part 806b. For additional information contact the system manager.

BILLING CODE 5001-06-P

DEPARTMENT OF DEFENSE

Department of the Army

Notice of Availability of the Draft Environmental Impact Statement (DEIS) for the Maneuver Center of Excellence (MCOE) Actions at Fort Benning, GA

AGENCY: Department of the Army, DoD.

ACTION: Notice of Availability (NOA).

SUMMARY: The U.S. Army announces the availability of the DEIS, which evaluates the potential environmental and socioeconomic impacts of the construction, operation, and maintenance of facilities and training areas at Fort Benning. The DEIS also re-evaluates projects that have moved or changed extensively from those evaluated in the Base Realignment and Closure (BRAC) and Transformation EIS (2007). The proposed action is designed to accommodate newly identified requirements for Armor School training, accommodate Army growth, and support the MCOE standup. The MCOE proposed actions include the construction, operation, and maintenance of facilities and training areas (including assets such as ranges and maneuver areas) to (1) accommodate newly identified requirements for Armor School training, (2) support the increased throughput of military personnel and students associated with Grow the Army missions, and (3) support the MCOE requirements at Fort Benning.

DATES:

1. *Public comment period for the DEIS:* Ends 45 days after publication of the notice announcing the DEIS availability in the **Federal Register** by the U.S. Environmental Protection Agency.

2. *Public Meeting:* Tuesday, January 13, 2009, from 3 p.m. to 5 p.m. and 6 p.m. to 9 p.m. at the Elizabeth Bradley Turner Center, Founders Hall, Columbus State University, Columbus, Georgia.

ADDRESSES: Please send written comments on the DEIS to: Mr. John Brent, Fort Benning Directorate of Public Works, Environmental Management Division, Building #6

(Meloy Hall), Room 310, Fort Benning, GA 31905. E-mail comments should be sent to: john.brent@us.army.mil.

FOR FURTHER INFORMATION CONTACT: Mr. Anthony O'Bryant, Fort Benning Public Affairs Office at (706) 545-4591, or Mr. Brandon Cockrell at (706) 545-3210 during normal business hours.

SUPPLEMENTARY INFORMATION: The Proposed Action and subject of the DEIS covers the construction and development activities in the cantonment, range and training areas to meet the requirements of the MCOE actions at Fort Benning.

The proposed action would provide the facilities, infrastructure, and equipment needed to support the MCOE activities at Fort Benning. All construction activities associated with the proposed action would occur on Fort Benning within the Georgia boundaries. The proposed community services, personnel support, classroom, barracks, and dining facilities would be constructed in three of the four cantonment areas at Fort Benning: Main Post, Sand Hill, and Harmony Church; no new construction is proposed in the fourth cantonment area at Kelley Hill. Throughout the cantonment areas, new facility construction will be sited to coincide with and/or be a complement to existing missions, facility operations, and functions. In order to minimize potential impacts to the environment (e.g., avoiding sensitive species habitat), existing infrastructure would be used to the greatest extent possible. Training assets, in the form of ranges and maneuver areas, currently are found throughout the installation. The proposed improvements/upgrades to existing ranges and maneuver areas and proposed new ranges were selected to align with these existing assets.

In the development of the DEIS, three alternatives were carried forward for analysis. Alternative A (the Army's Preferred Alternative) entails construction, operation, and maintenance of facilities and training areas, including assets such as small- and large-caliber weapons ranges, heavy maneuver areas and corridors, an off-road driver training area, and a vehicle recovery area to support the training range requirements. Also included are additional supporting projects and previously evaluated projects that have moved or changed extensively in order to support the increased throughput of military personnel and students associated with Grow the Army missions and MCOE standup activities. Alternative B is similar to Alternative A, but differs from Alternative A in the location of One Station Unit (OSUT)
